

Welcome to the new GO Magazine

Some of you may remember GO Magazine as an insert in the old Teaching Technology magazine and before that within Computer Education. We have now updated not only the content but also the medium. However the basic premise remains the same – a vehicle for sharing ideas and providing the latest news. We are, of course, interested to hear from you and would love to hear of your experiences with any of our products, or any feedback to our new look GO magazine.

Launching Roamer-Too

The most exciting event in Valiant is the long awaited arrival of Roamer-Too, the follow up to the Classic Roamer. It has been hovering on the horizon for a number of years, but it has only recently become a reality, using the latest developments in technology married to our latest knowledge of how the brain works and learning skills. A sort of Asimov meets Howard Gardner!

Breaking News!

We are delighted to announce a partnership with Anthotronix for the development of Roamer-Too activities particularly for use with SEN children. Read more about it in the next edition of GO.

Next Issue - March 2009

Roamer-Too and SEN

First of a special series showing how the new Roamer is ideal for Special Education.

In the beginning...

[Wally Feurzeig](#) is the Chief Science Officer at [BBN Technologies](#). In this article he recalls the events that led up to the invention of [Logo](#).

[Going to School in Disneyland](#)

Kenton Morrison talks about Evergreen Elementary School in Washington State. The school won an award from the Disney Corporation who built a unique school. Roamer is now at home helping to develop tomorrow's Imagineers.

[Handheld Technology makes a Difference](#)

Paul Butler, ICT Adviser in Sandwell, talks about their handheld technology programme and their experience with MathAmigo.

[Powering Your Roamer](#)

Practical tips on using batteries in the Classic and the new Roamer.

[RoAD Partnership](#)

Your opportunity to shape the future of robots in the classroom.

[Kate's Blog](#)

Bookmark it now - a personal view of education, business and the world in general.

[BETT Jan 14 - 17 2009, Olympia](#)
